NIHR IBD BioResource: Contact records

Overview

Identification	IBD_BioResource_Contact_Details_v1.0
Version	1.0
<p><u>Abstract</u> The NIHR BioResource acquires contact details - name, address, email address, phone/mobile number - from participants at recruitment. This is used to recontact participants to invite them to take part in experimental medicine studies, and to prevent further contact in the case a participant opts out of the study.</p> <p>This dataset includes only participants, either Active or Deceased, that have previously given consent to take part in the study.</p> <p>More information is available here: https://web.www.healthdatagateway.org/dataset/02ddc5c9-03d4-40e4-9934-e60817ec8f3e</p> <p>This documentation refers to a draft version of the dataset.</p>
